

National medical academy of postgraduate education
named after PL Shupyk

**ORGANIZATION AND PERSPECTIVES
OF POSTGRADUATE EDUCATION OF
ANAESTHESIOLOGY AND INTENSIVE CARE
IN UKRAINE**

Igor Shlapak

Professor of Medicine,
Division of Anesthesiology
and Intensive Care

The System of postgraduate education of anaesthesiology in Ukraine - Today

Specialization

- Interns - 2-3 years
- Specialization during 6 months (if you change your speciality ex. from GP)

Advancement of qualification

- Clinic. Ordination (clinical fellowship) – 2 years
- Thematic courses – 2 ,4 ,6 months
- Cycles before attestation – 1 month, once for 5years

Training for specialists - teachers and members of staff of scientific of anaesthesiology

| | | |
|---|---|--|
| Post-graduate study | <ul style="list-style-type: none">• internal-3years• external-4years | Candidate or doctor of Medical science |
| Magistracy | •2 years | Magistrant |
| Working for degree of Doctor Competitor | 3 years — | Candidates and Doctors of Medicine |

Traditional Soviet system of training: priority of lecture

- Pluses (advantages):
 - + education for short period of time and low cost
 - + guaranteed coverage of big listeners audience
- Minuses:
 - differences between theory and practice (you are not able to anaesthetize cardiosurgery, transplantology, childsurgery)

In what kinds of institutions can we get the postgraduate education of anaesthesiology?

We can get an education in the institutions, such as:

- The National medical academy of postgraduate education named after PL. Shupyk
- The Medical Academy of postgraduate education in Harkiv
- The Medical Academy of postgraduate education in Zaporizzja
- Seven faculties of higher education medical institutions and academies of postgraduate education

How can we to appreciate the system of schooling our doctors-anesthesiologists today?

Our system doesn't meet to requirements today, when:

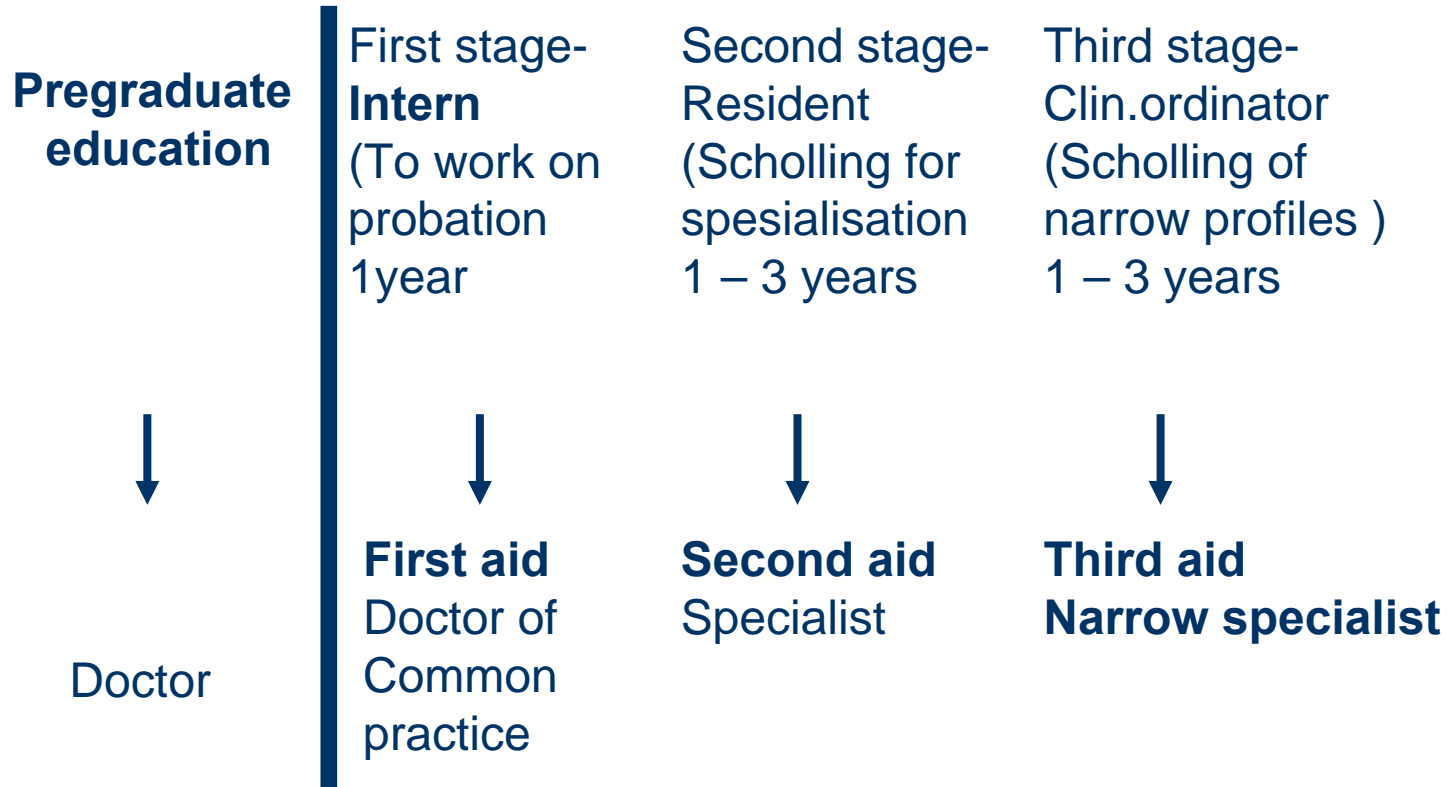

- The world medical science is unwinding very fast
- The standarts of diagnosis and therapies are changing every minutes
- Our economic is not stable

That is why our doctors have to support their professional competitions on high level

How can we improve a level of our postgraduate schooling for our doctors?

- ❑ It is necessary to reform our system
- ❑ In National Medical Academy of postgraduate education was exploited the project of Conception of postgraduate education
- ❑ Residency has the main position
- ❑ Project of Conception was published. Many discussions are their.

The project Of Conception of postgraduate education

Discussion about Residency

- ❑ How long will be this kind of education of anesthesiology?
- ❑ What about competition for contestants by different specialists?
- ❑ Correlation between teachers and residents?
- ❑ What financial sources for additional teachers in residency?

Problems

- ❑ It is necessary to increase amount of clinics in universities with modern equipments
- ❑ It is necessary to increase numbers of techers for residents
- ❑ It is necessary to change the system of finances

Improving in system of postgraduate education in Ukraine the conception of “continuous professional development” (CPD)

- CPD is the main prerequisite of supporting of high level competence during professional life of every doctor
- CPD has to replace traditional Soviet system of conferment of qualification categories, when between attestations are 5 years, and level of knowleges is uncontroled

Leading to CDP in Ukraine

- ❑ 2007year: The project of conception of CDP where improved by National Medical Academy of postgraduate education named after PL Shupik
- ❑ 2007year: CDP where looked on Ukrainian sciences methodic conferention.
- ❑ Discussion of project CDP was looked on Coordination Counsel MPH of Ukraine; Discussion in Universities of postgraduate education is going on.

The project of conception CDPInclouse:

- ❑ Formalization kinds of increasing of doctor's qualification in universities of postgraduate education on cycles:
 - information and probation
 - training before attestation
 - thematic improving
 - clinic ordinarure

- ❑ In no formal contects
 - probation on working place
 - to take parting in training, schoolings, master-classes, conferentions
 - to master new medical techniks
 - publications, pattents, lections

How to estimate CDP?

- ❑ Proposed Assessing scale of different kinds and forms CDP for calculation amount of hoarder numbers, which are necessary to take during 5 years
- ❑ Proposed from 2009 to introduce mechanism of gradually Scale implementation

Thank your for
